

## PC Series with High Performance Lithium Battery Mobile Powered Workstations

Heavy-Duty Mobile Powered Workstations  
[laubner.com/en/products/mobile-workstations](http://laubner.com/en/products/mobile-workstations)

## Mobile powered Workstations PC Series

The PC Series mobile powered workstation is a mobile platform that not only provides the same flexible mobility as our lighter mobile workstations but allows for expanded possibilities with room for a laser printer, supplies, inventory and more. With a 76 cm or 122 cm tabletop, it can serve as a mobile workspace that has room for your laptop and your paperwork too.

### Unique Features Include:

- High capacity
- Long life of 5-7 years or 3000 charging cycles
- Rugged construction provides a capacity of total 180 kg
- Wide variety of optional accessories available for a highly versatile workstation

Optional printer shelf

Integrated power strip

Specialized casters make cart movements smooth and easy

PC Series workstation with optional accessories

PC Series Mobile Workstations listed below come standard with one adjustable height shelf, locking casters, push handles, integrated power system, power strip and wastebasket.
